

Challenge

Complete these calculations.

- A $XI + XXIII$
- B $LVI - XXV$
- C $XIII \times VIII$
- D $LXXII \div IX$
- E $\frac{1}{V}$ of XLV

Show your working out and explain how you found the answers.

Think about ...

Show how you translated the Roman numerals into Hindu-Arabic numerals.

Write your answers in both Roman numerals and Hindu-Arabic numerals.

What if?

Complete these calculations.

- F $DCXLVII + CCCLXXXV$
- G $MMMMDCLII - MCMXLVI$
- H $LXIII \times LVIII$
- I $MCMXLIV \div VI$
- J $\frac{V}{VIII} \times XCVI$

Show your working out and explain how you found the answers.

When you've finished, turn to page 80.
